What our customers say

“ We wanted a new build. Our previous house needed substantial work doing over the time we were living there and always felt like an ongoing process, so we wanted to leave that behind and find somewhere new, homely and ready.

Our Cala Home was perfect. We lifted and shifted our furniture in and we were ready to

start living. Being able to choose finishes in areas like the bathroom and kitchen from the outset meant that we felt like we were moving into a new build with our own style.”

Sustainability the Cala way

Cala has a rich heritage originally dating back to 1875. We started building homes in the 1970s and, for over 50 years, have been creating high quality, sustainable new homes and communities. However it is not just what we do, but the way we do it that matters to Cala.

Thinking sustainably is at the heart of everything we do; from identifying the right sites, through creating a safe, healthy and fulfilling working environment, to taking a sensitive approach to development and delivering communities that meet local requirements.

As part of our sustainability journey we are aiming to reduce our paper usage by 90% across the company, including the customer journey, which is why we are aiming for online only brochures at our developments.
