What our customers say

Happy buyers from Cala at Wintringham

“My husband works all over Cambridgeshire and Hertfordshire and I am fortunate enough to work from home a large majority of the time. This meant we were looking for a home with great transport connections, but also spacious enough to accommodate a home office.”

“I fell in love with the hallway, it was the first thing we saw as we entered the property.

It is so spacious; Cala's ceilings are so much higher than in other new-build properties we've seen, and it just gives such a sense of space. I also love the kitchen, it's so central to our lifestyle so it's great to have such a bright airy space to socialise in.”

Sustainability the Cala way

Cala has a rich heritage originally dating back to 1875. We started building homes in the 1970s and, for over 50 years, have been creating high quality, sustainable new homes and communities. However it is not just what we do, but the way we do it that matters to Cala.

Thinking sustainably is at the heart of everything we do; from identifying the right sites, through creating a safe, healthy and fulfilling working environment, to taking a sensitive approach to development and delivering communities that meet local requirements.

As part of our sustainability journey we are aiming to reduce our paper usage by 90% across the company, including the customer journey, which is why we are aiming for online only brochures at our developments.
