What our customers say

The Stewarts

“ We looked at a few developments of new builds but everything came with an extra hidden cost. With Cala, there was none of that – it was all very transparent.

“Due to my design background, I have a keen eye for detail and Cala were leagues ahead of other developments in terms of interior finish and what was included in the price.

“When we stepped into the Colville it was clear that we would be buying something that was

good quality and durable – with elements of luxury.

“Initially when we moved in it felt like we were on holiday. I remember saying to Shona a few weeks in, ‘When do we have to pack and go home?’ ”

Sustainability the Cala way

Cala has a rich heritage originally dating back to 1875. We started building homes in the 1970s and, for over 50 years, have been creating high quality, sustainable new homes and communities. However it is not just what we do, but the way we do it that matters to Cala.

Thinking sustainably is at the heart of everything we do; from identifying the right sites, through creating a safe, healthy and fulfilling working environment, to taking a sensitive approach to development and delivering communities that meet local requirements.

As part of our sustainability journey we are aiming to reduce our paper usage by 90% across the company, including the customer journey, which is why we are aiming for online only brochures at our developments.
